Another troop train of 54 cars without weapons had been dispatched from Wilfleinsdorf prior to the above train on 1 November. during the last days of October, two more troop trains without weapons were dispatched. 25X1 1.

25X1 2. Comment. The trains going toward Hungary carried discharges who have been repatriated at least since late October 1953. The troop train from Hungary on 2 November 1953 confirms the shipping of replacements to Austria. Wilfleinsdorf as entraining station indicates that the cantonment west of Krisersteinbruch possibly was processing center for discharges and distributing point for replacements from the USSR. The Wilfleinsdorf railroad station which is located 4 or 5 kilometers from the above cantonment is the nearest loading station of this installation.
